Influences on a person's  
experience of death, dying and  
bereavement

A photograph of a group of children in a classroom. In the foreground, a girl with dark hair is smiling and pointing her finger towards the camera. Behind her, another girl is looking off to the side. In the background, a boy is visible, and a teacher or adult is partially seen on the right, holding a string. The lighting is warm and slightly dim, creating a focused atmosphere on the children.

How might death  
education and  
bereavement support in  
schools be promoted and  
supported?

How do we create compassionate workplaces?

# How can we encourage compassionate communities?

**Socioeconomic  
disadvantage**

## The IKEA Effect

“You place a disproportionately high value on the things that you personally create or assemble.”
