

NEW STUDY - BE PART OF IT

- DO YOU HAVE LIVED-EXPERIENCE OF UK VISAS & LIFE-SHORTENING ILLNESS?
- DO YOU CARE FOR A RELATIVE IN THIS SITUATION?
- DO YOU HAVE PROFESSIONAL EXPERIENCE IN THIS AREA?

WE NEED YOUR VIEWS!

We're a small team of researchers at the University of Stirling. We're working on a 14-month study funded by Marie Curie.

Our study explores what it's like to be on a visa in the UK when faced with life-shortening/terminal illness.

Through our research, we hope to learn about the experiences of individuals and families when on a visa in the UK and diagnosed with a life-shortening condition.

We hope to improve the development of knowledge in this area, and to make recommendations to policy makers and services to better help individuals and families in the future.

One-off interviews will be carried out by a researcher and will last about 60 minutes.

Interviews will be on a one-to-one basis unless you'd prefer to bring along someone you trust.

Interviews can take place online or in person at a day and time that best suits you.

As a thank you, we're offering everyone taking part a £25 gift card.
